

Work Space

Optimizing organizational efficiency and providing a better work experience, the focus is on creating spaces that foster confidence, belonging, wellness, safety, connection, and trust.

Recommended Styles: Montage, Promessa, Tottori, Ultraleather, Volar Bio

Community

Often described as the heartbeat of any environment, community areas build connection through social spaces. They offer a variety of seating options for meeting, training, catching up, and grabbing a bite to eat. They promote casual interactions and reinforce relationships and are often designed with comfortable and casual pieces.

Recommended Styles: Montage, Promessa, Tottori, Ultraleather, Volar Bio

Caregiver

Workplaces designed around this collaborative structure encourage transparency, discussion, and respite. The need to support administrative tasks and share information through a mix of work areas should support a range of interactions. This environment includes break rooms, meeting spaces, nurses stations, supply areas, and lounges.

Recommended Styles: Montage, Promessa, Tottori, Ultraleather, Volar Bio

Patient Room

No longer just a place for medical examinations and treatments, the patient room serves as a space where consulting, learning, and person-to-person sharing happens. These spaces revolve around patients, their family, and their satisfaction while optimizing caregivers' effectiveness and experience, including a high level of performance, cleanability, and durability.

Recommended Styles: Ultraleather, Promessa, Tottori, Volar Bio
